

January 13, 2016

To whom this may concern,

Lucid Love came to present to Guillen Middle School last semester during fall of 2015. Ms. Cabada's story is impactful and resonated with our students. Their message of self-love, self-respect, and love for others has truly made a difference at our campus. Up to this day we have students who talk about the presentation and how it has made a difference in their lives. As a school counselor, I lead anti-bully campaigns every day, but even then my message has not had the power that Lucid Love's testimony carries. I look forward to continue working with the team at Lucid Love.

Thank you for your time,

Mariana Ruiz
